

MINING NEWS

OPTION ON LUCKY BOY MINES IS FORFEITED.

Salt Lake City, May 30.—J. F. Mitchell, who is now devoting much of his time to looking after his interests at Lucky Boy, stated with a big broad grin that there wasn't anything to say about the new camp. On one block of ground in which he is interested ore is already in sight and shipment may commence within the next few days, says the Goldfield Tribune.

Aside from the ground controlled by Mitchell and Fairfield, the work in progress on the Collins lease is also under his supervision and it is believed by those who are familiar with the ground that a high grade body of ore will be encountered there before they have proceeded far with the work now in progress. Hoists have been erected on the ground and the work is being pushed with all haste. It is intended that the ground be thoroughly opened up in time to get the ore out before the expiration of the lease.

While it is not confirmed, yet there is a rumor to the effect that the option recently taken on the famous Lucky Boy and Alamo groups, of which the Mountain King claim is a part, where the Hubbard lease has been taken out something close to the \$500,000 mark in the past few months, has been forfeited and another granted to parties whose names are not known. Just the figure at which the last option was obtained is another uncertainty and the future happenings are being awaited with a good deal of interest by those interested in the section, since it is hinted that it is barely possible that some of the biggest capitalists in the world are fishing for the rich ground, names having been mentioned in connection with the deal which spell millions in American financial circles.

MINING MEN RETURN FROM TRIP TO PIOCHE.

Salt Lake City, May 30.—Colonel James L. Hackett and Anthony H. Godde, two of the chief officials of the Prince Consolidated and Ohio-Kentucky companies, returned from Pioche yesterday morning. Colonel Hackett had not been at the properties for several months and he expressed himself yesterday as being more than pleased with the manner in which the ore bodies were being opened.

At the same time these officials were in camp George W. Leonard, president of the Nevada-Utah company, and Treasurer Bergen were there also, although the presence of all of them at the same time in the camp was merely a coincidence as neither crowd knew the other was going. When it was learned that both sides in the controversy that is on over the Ohio-Kentucky were represented in the camp it was thought that another effort was going to be made to reach an understanding. Such was not the case, however. The parties

did not meet and the question was not discussed. As Mr. Leonard did not show up in this city yesterday the presumption is that he went through for the east without leaving his train. Colonel Hackett expects to leave for his home in Louisville today or tomorrow. He will be out again during the early fall.

BARRED FROM UTAH.

Salt Lake City, May 30.—According to George B. Squires, insurance commissioner, there are a number of insurance companies in the state that have failed to comply with the state laws and are therefore disqualified. The National Livestock association of Portland, Ore., the Western Life and Accident Insurance company of Denver and the Farmers and Merchants Insurance company of Lincoln, Neb., are the companies referred to.

The laws of this state require all joint stock fire insurance companies to have a capital and surplus of at least \$300,000. Time has been given those companies that have not this amount to make up the deficiency. The Farmers and Merchants Insurance company may re-enter the state when it has increased its stock by \$100,000, and its surplus by \$50,000. The German Fire Insurance company of Peoria, Ill., is said to have gained a sufficient amount in surplus during the last year to qualify it to continue in this state.

PROVO TALENT MINING OVER IN WYOMING.

Bannock county, Wyoming, has a mine that promises to be one of the best in the country. It is located about eight and one-half miles south-east of the town of Dempsey and now has a shaft a little more than 100 feet in depth. A tunnel is being run and will cut the vein at a depth of more than 300 feet. The values obtained thus far from assays show as follows: Lead, 70 per cent; silver, 120 ounces; gold, an average of \$65.

The vein varies from one to two and one-half feet in width and specimens are of a character that encourage investment. S. B. Colton of Provo is the president of the company owning the mine, and W. R. Godfrey of Dempsey is the manager, and these expect to make some shipments this summer for test purposes if for nothing else. Samples of the ore may be seen at the Chieftain office.

NEW COAL MINES NEARLY READY TO BEGIN SHIPPING.

Salt Lake City, May 30.—Frank N. Camern, Sam C. Sherrill and others interested in the new coal proposition being developed in Panther canyon, half way between Helper and Castle Gate, have been on the ground the greater part of the past week looking after the work there. At this time there are more than seventy-five men on the payroll, the greater number being employed on the grading work for the tramway. It is expected to have this completed and coal shipments coming out by the first of September, says the Price Advocate.

For the past two weeks a commis-

sary has been established and this is in charge of H. J. Schultz, formerly with the Wasatch store company at Castle Gate. He is to have charge of the store and office forces as the camp grows.

Numerous Italian citizens at Helper, formerly in the employ of the Utah Fuel company at Castle Gate and elsewhere, are finding employment with the Cameron proposition.

BIG NEVADA MERGERS IN THE NEAR FUTURE.

Salt Lake City, May 30.—A well known Nevada mining operator is of the opinion that the remaining months of the year will see much merging of mining properties in the various Nevada camps. He points out that when a camp is new it is not an easy matter to interest capital in mining propositions, but let a half-dozen propositions make good and the owners soon have a flock of men of money around them wanting to buy and consolidate everything within a square mile of everything else.

There are numerous instances of this consolidation fever now apparent. George Wingfield, the head of the Goldfield Consolidated company, which, by the way, is a standing illustration of the wisdom of merging the right properties, has an option on the Nevada Hills property of Fairview which he will exercise or refuse within the next few days. If the deal is consummated successfully it means a consolidation of the Nevada Hills with other Fairview properties.

Even the camp known as Yerington, but whose proper name is the Mason Mining district, is reported or thought to have the merger fever, and the staid and dignified Mason Valley is thought to be flirting with the Bluestone, or vice versa. There are numerous copper properties extending along the eastern side of the range containing the Mason copper mines which ought to join the Mason Valley-Bluestone alliance, in case the latter really is a go. The Mason Valley company ought to own the Yerington Malachite and the Western Nevada Copper properties anyhow, and the merging fever may spread to this extent some of these soon days.

This Nevada operator says, also, that there are rumors of mergers in the Round Mountain district and, in fact, everywhere throughout the state that is blessed with good mineral showings. Capital entering Nevada wants acreage as well as mineral, and the few claims which satisfied the early locator and developer by no means satisfy the man of big affairs. So some very interesting news during the balance of the year is anticipated of just such deals.
